Education

University of California, Berkeley

Berkeley, CA, USA

BA in Planetary Science, BA in Astrophysics, Minor in Chemistry

May 2028

- GPA: 3.955/4.0
- *Relevant Coursework:* Introductory Astrophysics, General Chemistry, Organic Chemistry, Physical Chemistry, Planetary Astrophysics, Calculus, Differential Equations, Linear Algebra, General Physics, Physics of Planetary Interiors, Electricity & Magnetism

Mission Early College High School

Santa Clara, CA, USA

High School Diploma, AS-T in Physics

May 2024

Research

Undergraduate Researcher

UC Berkeley, CA, USA

Bergner Lab

Feb 2025 – present

- Modeling edge-on protoplanetary disks using radmc3d to analyze relationship between inclination and column density calculations
- Modeling water ice emission in protoplanetary disks
- Conducted molecule identification and spectral analysis of ALMA proto-stars to probe phosphorus chemistry in planet-forming regions

CIERA REU Intern

Northwestern, IL, USA

Center for Interdisciplinary Exploration and Research in Astrophysics (CIERA) REU

June 2026 – present

- Compared geogocial features of terrestrial planets to understand their evolutions
- Utilized observations for planetary missions

Ramsden Research Fellow

Berkeley, CA, USA

Macdonald Lab

Oct 2024 – May 2026

- Developed protocol for usage of hand-held XRF instrument to analyze and interpret major element compositions of carbonates
- Investigated effects of diagenesis and mineralogy on $\delta^{13}\text{C}$ values of carbonates recording the Trezona anomaly

Teaching

Python DeCal Student Facilitator

UC Berkeley, CA, USA

UC Berkeley Department of Astronomy

Jan 2025 – present

- Taught lectures on Python programming, plotting, and data analysis techniques
- Hosted office hours to provide students with individual support and address coding questions

ASTRON/EPS C12 - Planets Reader

UC Berkeley, CA, USA

UC Berkeley Department of Astronomy & Department of Earth & Planetary Sciences

Jan 2026 – May 2026

ASTRON/EPS C162 - Planetary Astrophysics Reader

UC Berkeley, CA, USA

UC Berkeley Department of Astronomy & Department of Earth & Planetary Sciences

Aug 2025 – Dec 2025

ASTRON/EPS W12 - Planets Tutor/Reader

Remote

UC Berkeley Department of Astronomy & Department of Earth & Planetary Sciences

June 2025 – Aug 2025

- Interacted with students via discussions and office hours
- Point of contact for sections of the class, assisting student with material-related and administrative questions

Professional Experience

Chief Scientist

NASA L'SPACE Mission Concept Academy

Remote

Jan 2025 – May 2025

- Participated in weekly seminars covering the process of NASA mission concept development and learning from industry professionals
- Led team of 5 through science-delegated tasks, developing a NASA mission concept for a Aerobot system to conduct research on the Venusian atmosphere and surface and navigating surprise roadblocks through reevaluating priorities and descoping
- Presented final PDR document to board of mentors, providing a summary of our mission and answering clarifying questions

Extracurriculars

ULAB Mentor

Undergraduate Laboratory at Berkeley (ULAB), Physics & Astronomy

Berkeley, CA, USA

Sept 2025 – May 2026

- Mentored new undergraduates through research project analyzing ALMA observations of protoplanetary disks, culminating in creation of research poster presented to faculty and students in the Physics & Astronomy Departments

Telescope Crew Officer

Undergraduate Astronomy Society

Berkeley, CA, USA

May 2025 – present

- Operated & trained telescope crew in usage of Newtonian & Schmidt-Cassegrain telescopes
- Trained in and operated the Richard Treffers 17" PlaneWave telescope, of the UC Berkeley Department of Astronomy
- Co-facilitated weekly Sidewalk Astronomy outreach events to engage the campus community in public observation sessions

MPS Scholars Mentor

Math & Physical Sciences Department, UC Berkeley

Berkeley, CA, USA

May 2025 – present

- Advised freshman on course selection, research opportunities, and academic planning within the EPS and Planetary Science disciplines
- Hosted regular mentoring meetings to address student questions and provide academic and personal support

Extrusion Sub-team Member

Student Environmental Resource Center

Berkeley, CA, USA

Sept 2024 – May 2025

- Researched and tested methods for extrusion of recycled 3D printer filament to create a closed-loop campus filament recycling program

Sensor Placement Co-Lead

Strawberry Creek Monitoring Group

Berkeley, CA, USA

Jan 2025 – Aug 2025

- Created social media posts and graphic design materials for outreach on SCMG activities and creek health
- Co-led sensor placement efforts, finding optimal locations to place sensors monitoring creek activity

Awards & Honors

Ramsden Research Fellowship

- Summer 2025 - \$7500
- Fall 2025 - \$2000

Dean's List

Fall 2024, Fall 2025

Presidential Volunteer Service Certificate

Fall 2023

Presentations

Evaluating the Handheld XRF as a Means for the Major Element Analysis of Carbonates

Apr 2026

2026 GSA Cordilleran Section Meeting

- Poster presentation

Modeling Water Ice in Protoplanetary Disks

Apr 2026

UC Berkeley Physics & Astrophysics Undergraduate Research Colloquium

- Oral presentation & panel

Skills

Lab: Microscopy, XRF, Mineral Separation

Coding: Python, Matplotlib, Pandas, NumPy, SciPy, Seaborn, Cartopy, LaTeX, HTML, CSS, HPC (Savio)

Programs: CASSIS, CARTA, radmc3d

Languages: English, Arabic

Memberships

Geological Society of America

2025, 2026

Student Member

American Physical Society

2025, 2026

Student Member
